AI Mukhlishin School

Bringing Islamic schools in Indonesia to new heights with Google Workspace for Education

Customer: Madrasah Tsanawiyah Mukhlishin

Industry: K12, Education

Challenge

While the teachers are excited to learn more, how can technology and Google Workspace for Education in particular help teachers leverage its benefits while maintaining core values of Islamic education?

Solution

Over the course of six months, Google for Education worked with the school to transform two classrooms into fully Google enabled learning environments. All teachers use Google solutions in every aspect of teaching and learning across all subjects on the curriculum.

Key takeaways

- ✓ Islamic teaching and learning activities elevated in general
- ✓ Improved experience in all teachers' activities
- ✓ Time-saving effects for both teachers and their students
- ✓ Chromebooks viewed as the top device for educational purposes
